

PRESERVING THE ARTIST'S INTENTION

SPECIFICATIONS

Museo® Artist Cards are made to archival standards:

- ▶ internally buffered
- ▶ no fluorescent whiteners added
- ▶ use of naturally occurring pure Artesian well water
- ▶ acid-free
- ▶ weight: 220 gsm
- ▶ caliper: .014" (356 µm)
- ▶ brightness: 91
- ▶ ph: 7.9– 8.5
- ▶ velina finish
- ▶ two-side printable
- ▶ 100% cotton, which has the highest percentage of alpha cellulose (the purest form of cellulose)

HANDLING

- ▶ Handle paper by the edges prior to printing.
- ▶ Special care should be taken not to contaminate the ink receptive surface.
- ▶ Oil from fingers can interfere with print quality.

PRINTER SETTINGS

Museo® Artist Cards are compatible with most photo-realistic inkjet printers.

We are continually testing new printers and updating our website with results.

For the best color reproduction results please check our website for our recommendations.

APPLICATIONS

- ▶ photo and art cards
- ▶ christmas and birthday cards
- ▶ invitations and announcements
- ▶ gift cards
- ▶ advertising

MUSEO® ARTIST CARDS

Museo® Artist Cards are the latest addition to Crane's digital fine art portfolio. Pre-scored sheets are printable on both sides for creating fine-art cards, promotional materials, gift cards, and wedding and birth announcements. Museo® Artist Cards are specifically engineered for ink jet printing. Matching envelopes are included in every box. Online, easy-to-use printing templates are available on our website.

Crane's has balanced the latest in technological innovation with a 200-year old tradition of the finest paper-making in the United States. All Museo® papers are manufactured to the Library of Congress's archival standards — acid free, internally buffered, without optical brighteners — and have been field tested by some of the premier fine art digital printmakers in the country.
